

Glenda Ritz, NBCT
Indiana Superintendent of Public Instruction

MEMORANDUM

TO: State Board of Education

FROM: Dr. Michele Walker, Director
Office of Student Assessment

DATE: June 25, 2014

RE: High School Waiver Rates / Remediation Plan – IDOE Recommendation

Statutory Requirement

Section 4 of IC 20-32-9 requires the State Board of Education to develop criteria to be used by the Indiana Department of Education (IDOE) to identify secondary schools with the highest graduation waiver rate percentages in Indiana that may require the establishment of a school wide remediation plan.

The Process

First Year

The first year a school is identified, the State Board of Education shall place the school and the school corporation on notice that the school has exceeded the percentage of graduation waivers determined as the criteria. Upon receiving notice, the school is required to develop and submit a school wide remediation plan to the IDOE.

Second or Subsequent Year

If the school is identified in the second or a subsequent year after the initial identification, the State Board of Education shall place the school and the school corporation on notice once again. Upon receiving notice, the school is required to collaborate with the IDOE to develop and implement a revised school wide remediation plan.

Recommendation for Consideration

The Indiana Department of Education recommends that ***schools with the percent of graduation waivers exceeding 10% each year for three consecutive years*** be required to establish a school wide remediation plan, per Section 4 of IC 20-32-9.
